Where available, license state consumption based on tax gallonage reported by state tax authorities. In other states, estimated from state tax collection by dividing revenues collected by tax rate per gallon. In Georgia, Hawaii, Missouri, South Carolina, South Dakota and Wisconsin, consumption represents shipments from distillers to wholesalers. Hawaiian estimates through 1983 are based on semiannual tax data.

Control state consumption is package sales in retail stores and case sales to on-premise licensees as reported to NABCA, except in Mississippi and Wyoming where statistics represent wholesale sales by state liquor control boards to private retailers.

a - License States: Where available, license state consumption is based on taxed gallonage reported by state authorities. In other states, estimated from state tax collections by dividing revenues collected by the state tax rate per gallon.
* In Georgia, Hawaii, Missouri, South Carolina, South Dakota, and Wisconsin, consumption represent shipments by distillers to wholesalers.

b - Control States: All control state data, with two exceptions, are package sales in retail stores and case sales to on-premise licensees.
** In Mississippi and Wyoming the data represent wholesale sales from state-controlled warehouses to private retail establishments.

NOTE: Because of rounding, detail may not add to total.

a - Data for the years 1934 through 1978 are in tax gallons; data for 1979 and on are in proof gallons.

b - Indicates shipments in wood or metal containers each holding more than one gallon.

c - Vodka included in "Other" before 1980.

d - Tequila included in "Other" before 1974.

e - Bitters included in "Other" before 1979.

f - Substantial quantities of imported bulk rum were shifted from Customs bonded warehouses to BATF bonded warehouses in 1984 (about 5 million from Jamaica). As a result these supplies have been described as imports for immediate consumption although bottling and consumption may not take place for a year or more. The shift occurred because, with passage of the Caribbean Recovery Act in 1984, rum from Caribbean nations now enters the U.S. duty free, making storage in Customs bonded warehouses unnecessary to defer payment of import duties.

FOOTNOTES:

a - Revised.

b - May include product to which 160 proof and over whiskey has been added as part of contents but does not enter trade channels at 160 proof.

c - Includes whiskey from Northern Ireland.

d - 1986 Puerto Rican rum data estimated from total (bottled + bulk) rum shipments by assuming bottled shipments for all of 1986 would comprise 25% of total Puerto Rican rum shipments for all of 1986.

NA - Data for 1980 are not strictly speaking comparable with 1981 and earlier year data because of reporting and definitional difficulties in the first nine months of 1980 that resulted from the change to the all-in-bond system by the U.S. Bureau of Alcohol, Tobacco and Firearms. Also, for these reasons, a breakdown between domestic and imported non-whiskey spirits for 1980 is not reliable and therefore is not given.
